KTL and KTL + security labels

- Label / security seal on a roll for sealing cardboard or fiber boxes containing valuable merchandise. They reveal hidden VOID / OPEN message when removed and leave evidence of tampering.
- The security tamper tape is made with a highly visible print on the top surface as a warning of theft.
- The security tape provides a clear "VOID" "OPEN" message in the application when tampered with.
- Our KTL and KTL + security labels are cold resistant down to -40 degrees Celsius and it is impossible to reseal once lifted from the surface.
- The security tape leaves a permanent residue on the surface layer of cargo boxes, pallets and cartons. Can be used on metal, plastic, cardboard, glass, wood, painted metal, and more.
- Essentially, the tape provides an additional level of security by providing a clear, visual indication of tampering.
- The printing and numbering of the KTL and KTL + security labels are on the bottom sheet, so they cannot be altered.
- Material: Translucent polypropylene with high strength adhesive.
- Perforated and numbered every 150 mm to use also as a label.
- Wide range of colours and sizes. Can be customized from orders for 200 rolls upwards.
- Can be applied with a dispenser
